**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
There is some uncertainty in the northward extent of the rain with the Aberdeenshire hills favouring the best of the dry weather.

Forecast for Saturday 01 Jan 2022
Weather: Severe gale force winds making progress very difficult on the tops. A spell of heavy rain overnight and early morning then bright spells and occasional blustery showers, some heavy and possibly thundery in the west. Showers turning wintry on the Munro tops later.

Maximum wind: Southeast 20 to 30mph increasing South or Southwest 35 to 45mph with gusts 65mph by morning.

Chance of cloud free mountain/hill tops above 800m: 20% at first, becoming 70%.

Visibility: Poor at first with areas of cloud above 600m. Becoming mainly good but poor in showers with patchy cloud down to 600m at times in the west.

Temperature: **Glens:** Plus 6C rising to 12C.
At 800m: Plus 4 or 5C.
Freezing level: Above summits, falling to 1100m in evening.
